Instructions:

1. Drive to the location listed above, pull up to the front entrance (under the porte-cochere), and enter the building.
2. Present your booking confirmation to the front desk, log your information, and they will provide you with a ticket to visibly display on your car and direct you to the designated parking area in the back parking lot.
3. After parking in the designated area, displaying the ticket in your car, return to the lobby and wait for the next scheduled shuttle.
4. The shuttle is free of charge and runs are scheduled every 20 minutes. At times, shuttles may have met shuttle capacity and/or luggage storage space, so be mindful that you might have to wait for the next run.
5. Once you get back to the airport, before collecting your luggage, call the hotel for shuttle pick up at **904 -714-3800**. Shuttles are available upon request. Wait times vary based on demand.
6. Please wait outside of departures, all the way to the left. Look for a white 10-seater van with the name of the hotel 'Aloft Jacksonville Airport' printed on both sides.
